

Professional profile

I am a dedicated and enthusiastic Master's student at the University of Hull, currently in my first year of an MEng in Computer Science. I am a quick learner with strong problem-solving skills and a keen eye for detail. My ability to work well in a team, communicate effectively, and adapt to new challenges makes me a reliable and hardworking individual. I am eager to apply my skills in a practical setting and contribute positively to a dynamic work environment.

Skills

Transferable Skills

- **Communication & Teamwork** – Developed through group projects and work experience.
- **Working Under Pressure** – Ability to perform effectively in dynamic and fast-paced environments.
- **Attention to Detail** – Ensuring accuracy and meeting deadlines consistently.
- **Customer Service Skills** – Confident in assisting customers and providing a positive experience.
- **Adaptability & Quick Learning** – Ability to pick up new skills and tasks efficiently.
- **Time Management** – Organizing tasks effectively to meet deadlines and priorities.

Education and qualifications
